PROJECTS

- Online HOSTEL MANAGEMENT SYSTEM (3 Month)**
 - Objectives:** In the offline is lot of paper work and manual hence it is very time consuming. So that's why we have created this Online Hostel Management System.
 - Developed using PHP and XAMPP server
- ONLINE EXAM PORTAL(Team Work) (3 month)**
 - Objectives:** The Online Exam Portal is a modern solution designed to streamline and digitize the examination process for education institutions. By automating tasks such as exam creation, scheduling, evaluation and result publication, it significantly reduces manual workload and increases efficiency.
 - In this project my contribute to design a student side dashboard and created a documentation.
 - Developed using React.js and MongoDB

OTHER ACTIVITIES

- Participated in Oriana events.
- Participated in Vyom 2025 events.
- Participated in NSS activities.
- As a work to volunteer in college events.
