## PROFILE

---

Motivated and detail-oriented MCA student with hands-on experience in full-stack development and strong problem-solving abilities. Passionate about building efficient and user-friendly applications with a focus on modern web technologies. Eager to contribute and grow in a challenging tech-driven environment.

## TECHNICAL SKILLS

---

**Languages:** C,Python,PHP,Java

**Frontend Development:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS,Bootstrap

**Backend Development:** Node.js, Express.js

**Database:** MySql,MongoDB,PHPMyAdmin

**Tools Platforms:** Git, GitHub, VS Code

**Soft Skills:** Leadership,Time Work, Decision Making

## EDUCATION

---

### Master of Computer Applications (MCA) – In Progress

*Anand Institute of Management and Information Science, Gujarat Technological University*

*Expected 2026*

- Sem-1: 7.55/10
- Sem-2: 7.82/10
- Sem-3: 7.23/10

### Bachelor of Computer Applications (BCA)

*Anand Commerce College, Sardar Patel University*

*2021-2024*

- GPA: 6.86/10

### Higher Secondary Education (12th)

*Maruti Highschool,Nes*

*2020-2021*

- Per: 67.73

### Higher Secondary Education (10th)

*Maruti Highschool,Nes*

*2018-2019*

- Per: 64.05

## EXPERIENCE

---

### Android Frontend Development Intern

2 Months

- Worked as a Frontend Developer using Android Studio to design and implement user interfaces for mobile applications.

## PROJECTS

---

### 1) LettrBox – Online Application Portal (MERN Stack)

*Group Project (Team of 2) – In Progress*

- Digitized the student application process with online submissions and subject-wise faculty approvals to reduce paperwork and improve workflow efficiency.
- Allows students to submit and monitor application requests online, while providing admins with real-time tools to review, approve, or reject submissions efficiently.

### 2) GreenCart (MERN Stack)

*Group Project (Team of 6)*

- Collaborated in a team of 6 to develop a grocery delivery application enabling users to order essentials online with streamlined delivery and tracking features.

### **3) Doctor Appointment Booking Portal**

*Solo Project*

- Built a doctor appointment booking system using HTML, CSS, Bootstrap (frontend) and PHP, MySQL (backend), allowing users to book appointments remotely and enabling doctors to approve or reject them.

### **3) Hotel Management Portal**

*Solo Project*

- I developed a Hotel Management System using Python Tkinter and SQLite to simplify hotel operations. In this project, I created a user-friendly GUI to manage customer details, room bookings, payments, and room availability
- I used SQLite to store all records and implemented CRUD operations to make the system efficient and easy to use.

## **CERTIFICATIONS**

---

### **Deloitte Australia Data Analytics Job Simulation on Forage - July 2025**

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

### **Hackathon - September 2025**

- Awarded the Winner Certificate in a hardware-based Hackathon for building an innovative and functional prototype.
- Designed and developed the complete hardware solution, showcasing strong technical skills, creativity, and real-world problem-solving.

## **COMPETITIONS AND EVENTS**

---

- 1) Secret Syntax Quest – Oriana 2025, Anand Institute of Management and Information Science
- 2) Quiz-O-Holic, Oriana 2025, Anand Institute of Management and Information Science
